The Ministry Of Environment,
Forest & Climate Change,
Integrated Regional Office,
Jammu.

Kind Attention :- Dr. Khusid Alam Khan.

Subject: - Half-Yearly Environmental Clearance & Monitoring Report-regarding.

Ref: - SEIAA/MS/2014/09/408-12 dated 12.04.2014.

Dear Sir,

Please find enclosed herewith the half-yearly Environment compliance reports for the period JULY 2025 to December 2025 along with the following submissions & enclosures:-

- i. The First aid boxes are available in adequate quantity at all the times at all Floors and in addition to that all the Stores of our Mall are maintaining the same.
- ii. We are using a number of Motors with proper maintenance record and we have a monthly schedule of each Asset and AMC contract of Capital Assets, further we are taking preventive maintenance measures for each assets to achieve the maximum efficiency of our assets. We are very much concerned for Energy Conservation.
- iii. From time to time we are discarding the old motors/assets and replacing with new motors/assets for better efficiency and energy conservation.
- iv. We are using Variable frequency drives on a number of applications such as in air conditioning in AHUs, on chiller pumps and Elevators etc.
- v. The copies of two local newspapers regarding environmental clearance has been submitted to your office on 30.05.2022 refer our letter of even date.
- vi. Inaugural date of our Mall was 30th of April 2014 and operation of the project date from 1st May 2014. Our financial year start from 1st of April to 31st of March.
- vii. We have purchased the land from JDA for a tenure of 40 years Lease Deed for Commercial purpose to set up Multiplex (Shopping Mall/Cineplex) and this land is not a Forest Land.

ENCLOSURES:-

- (1). PESO's licensing system dated 01/12/2025 valid up to 31.12.2030.
- (2). Consesent from J&K POLLUTION CONTROL BOARD vide consent no. PCC/digital/22062904092 of 2022 dated 27/09/2022 valid up to June 2027.

PART-II &PART-III
DESCRIPTIVE REPORT ON STATUS OF COMPLIANCE TO CONDITIONS OF ENVIRONMENTAL CLEARANCE
(EC) &ENVIRONMENTAL MANAGEMENT
SEIAA/MS2014/09/408-12, Dated 12.04.2014

M/s G.S, Malls Pvt. Ltd. was granted EC for G. S. Mall Pvt. Ltd. under the name & style of M/s G.S. Malls Pvt. Ltd., Channi Rama Opposite Bathindi Road, Jammu, Jammu & Kashmir, The compliance status of the Environmental conditions is given below:

Specific Conditions:

	S.No.		Environmental Conditions	Compliance Status
Construction Phase	A.1	WATER:	i) Water requirement shall be met through local water tanker suppliers or existing tube well permission from the ground water abstraction. ii) Sewage generated during the construction shall be discharged Into the soak pit through septic tank abstraction.	Done
	A.1.2	AIR:	i) Peripheral barricading shall be done to prevent dust emission spreading outside the project premises. ii) Water sprinkling shall be done in vulnerable areas for controlling fugitive emission, iii) The roads inside the project area and roads connected to the main toad shall be fully macadamized to avoid the fugitive emissions, iv) The ambient air quality shall be monitored in and around the project area regularly. v) The construction materials and debris shall be properly stored and handled to avoid negative impacts such as air pollution and public nuisances by blocking the roads and public passages,	Done
	A.1.3	SAFETY:	i) Structural design of the project shall strictly adhere to the seismic zone norms for earthquake resistant structures as J&K falls in seismic zone. ii) First Aid Box shall be made readily available in adequate quantity at all the time	Done

	A.1.4	NOISE:	<p>i) The overall noise level in and around the project area shall be kept well within the prescribed standards by providing noise control measures including acoustic insulation, hoods, silencers, enclosures vibration dampers, etc. on all sources of noise generation. The Ambient noise levels shall confirm to the standards prescribed under the Environment (Protection) Act & Rules.</p> <p>ii) The noise generating equipment's, machinery and vehicles shall not be operated during the night hours and shall be maintained properly to avoid generation of high noise due to lack of wear and tear.</p> <p>iii) Use of diesel generate sets shall be strictly with acoustic enclosure and shall confirm to EPA Rules for air and noise emission standards.</p>	Done
Other Conditions:	A.2		<p>x) The safe disposal of waste water and solid wastes generated shall be ensured.</p> <p>y) NBC norms shall be strictly adhered to.</p> <p>z) The children play area shall be kept at least 6 inch elevated from the ground/road level so as to desist entry of vehicle in the said area.</p> <p>aa) Barricade of adequate shall be re-used in filling and resurfacing of the area and recyclable scrap shall be sold to vendors.</p> <p>bb) All topsoil excavated during construction activity be used in horticultural/landscape development within the project site.</p> <p>vi) The debris generated during the construction work, though partially used shall be fully re-used in filling and resurfacing the area and recyclable scrap shall be sold to vendors.</p> <p>vii) Project proponent shall ensure use of eco-friendly building materials and ready mix concrete (RMC) in the project, whenever further material is required to be used.</p> <p>viii) Necessary sanitary, hygiene and first aid measures shall be provided during the construction activities and to be maintained throughout the construction phase.</p> <p>ix) Adequate accommodation, drinking water, sanitary facilities, first aid center, utensils and cooking fuel shall be provided for</p>	Done

			<p>construction workers at the site.</p> <p>x) Adequate care shall be taken to see that the surrounding landscape at the project site is not environmentally degraded.</p> <p>xi) Used cement bags, waste paper and cardboard packing material shall be sold off to recyclers. Residual steel scrap shall be collected at site and sold to recyclers.</p> <p>xii) Only lead free paints shall be used in the project.</p>	
Operation Phase:	A.3			
	A.3.1	WATER:	<p>i) During operation phase, total water requirement shall be 316 KL/day out of which flushing and horticultural requirement of 77 KL/day shall be met through treated sewage whereas fresh water requirement of 239 KL/day shall be met through water supply system. However, existing tube well may be used until water supply from the PHE is availed. Prior permission from CGWA shall be obtained for ground water abstraction during the operation phase.</p> <p>ii) Low water consuming devices shall be provided. Fixture for showers, toilet, flushing and dinking shall be of low flow either by use of aerators/ diffusers or pressure reducing devices, etc.</p> <p>iii) Sewage generation during the operation phase shall be 125 KL/day and it shall be treated in the STP. Treated sewage conforming to the JKSPCB norms shall be reused for flushing and plantation/ gardening purpose within the premises as far as possible. The surplus treated sewage quantity conforming to the JKPCB norms shall be discharged into underground drainage line of the UEED or drainage connection got from the UEED.</p> <p>iv) Dual plumbing system with separate tank and lines shall be provided for utilization of treated sewage for flushing.</p> <p>v) The STP shall be operated regularly and efficiently so as to achieve the JKSPCB norms at the STP outlet.</p> <p>vi) A proper logbook of STP operation and also showing</p>	<p>i) Water requirement through the local water tanker and existing tube well. permission from CGWA dated:-07.02.2014 is enclosed</p> <p>Average water Detail :-</p> <p>Water received from Tankers/Bore well = 60KLD</p> <p>Water consumed in washroom =20 KLD</p> <p>Water consumed in Kitchen = 22 KLD</p> <p>Rest of the water consumed in cooling towers, Cleaning & RO</p> <p>ii) water savings with prismatic taps, Urinals, toilets , flushing& drinking flow attached with electronic sensors for low water consumption.</p> <p>iii) Average 45 KLD treated water in STP confirming the JKPCB norms and reused the water for flushing, plantation and gardening purposes with in the premises and there is no surplus treated sewage quantity</p> <p>iv) Yes and followed the system.</p> <p>v) Yes, STP is operated regularly and efficiently as per JKPCB norms. Inflow and outflow digital meters are installed as per JKPCB norms.</p> <p>vi) Logbook of STP showing the quantity of treated sewage</p>

			<p>the quantity of treated sewage reuse and discharge shall be maintained and furnished to the JKSPCB from time to time.</p> <p>vii) Rain water harvesting from rooftop and paved areas and ground water recharge through 4 nos. of percolation wells shall be carried out as per the details submitted. Before recharging the runoff, pre-treatment must be done to remove suspended matter.</p>	<p>release and discharge as per JKPCB norms</p> <p>vii) Four nos. of water harvesting wells recharge ground water during raining & there is provision for cleaning rain water harvesting pits and being cleaned regularly.</p>
	A.3.2	AIR:	<p>i) Additional D.G sets, if any provided in future as backup power shall also be of enclosed type and conform to prescribed standards under the EP Rules. Necessary acoustic enclosures shall be provided at Diesel Generated Sets to mitigate the impact of noise.</p> <p>ii) The stack height of the D.G set shall be equal to the height needed for combined capacity of all the D.G sets.</p> <p>iii) The gaseous emissions from the D.G sets shall conform to the standards prescribed by JKSPCB. At no time, the Emission levels shall go beyond the stipulated standards.</p>	<p>i) Acoustic enclosures are installed in DG rooms and mitigate the impact of noise.</p> <p>ii) The stack Height of each DG set is 46.5 meters and 6.5 meters above the building.</p> <p>iii) Complying strictly and testing reports are enclosed.</p>
	A.3.3	SOLID WASTE:	<p>i) The solid waste generated shall be properly collected and segregated at source. The recyclable material shall be sold to vendors whereas other garbage shall be disposed off properly through Jammu Municipal Corporation.</p> <p>ii) Used oil shall be sold only to the registered recyclers.</p> <p>iii) The project must strictly comply with the rules and regulations with regard to handling and disposal of hazardous waste in accordance with the hazardous waste (Management, Handling, and Tran's boundary) Rules 2008. Authorization from the JKPCB must be obtained for collection/ treatment/ storage/ disposal of hazardous wastes.</p>	<p>i) There is a separate room for collection and segregation for municipal solid waste and segregated material given to vendor</p> <p>ii) Used oil is given to JKPCB registered vendor (Khajuria industry)</p> <p>iii) Hazardous waste and E-waste is given to JKPCB registered vendor</p>
	A.3.4	SAFETY:	<p>i) The planning, design and construction of all buildings shall be such as to ensure safety from fire.</p> <p>ii) The requirements for fire and life safety shall be fulfilled in the project as per the local by-laws and the NBC whoever</p> <p>iii) Firefighting facilities like static fire water tank of 200 KL capacity, fire alarm call point with siren/ buzzer at each</p>	<p>i), ii) and iii) All advance safety equipment of fire are installed in the building and annually inspected by Fire and emergency services as per local by-Laws. The NOC from fire department is enclosed.</p>

floor, fire extinguishers (CO2 type of 06 Kg each, 08 Nos. on each floor and one ABC type of 06 Kg) on each floor, 08 nos. in each floor, automatic sprinkler system in all floors per 3 mt. diacentre to center of area, fire indication panel at basement shall be provided.

iv) Adequate provision shall be made to ensure that water from the Fire Water Tank shall not be used for any other purpose.

v) Compulsory training to the staff for the first aid and firefighting along with regular mock drill shall be made as an integral part of the emergency management plan of the project.

vi) Dedicated power back up system shall be provided in the case of power failure and emergency of fire water pumps.

vii) Easily assessable First Aid Boxes shall be made readily available in adequate quantity at all the times in each floor.

viii) Main entry and exit shall be separate and clearly marked in the facility.

ix) Necessary emergency lighting system along with emergency power back up system shall be provided. Further necessary auto glow signage at all appropriate places shall be provided to guide the people towards exits and assembly points during emergency.

x) All the staircases and lifts shall open out at ground level from the highest point of building (with. Access from each floor) for emergency evacuation. Escalators provided in the building shall remain operational during business hours of the Mall.

xi) Provision for adequate air changes per hour in the assessment shall be made so as to avoid buildup of CO in the area.

xii) Sufficient peripheral open passage shall be kept in the margin area for free movement of fire tender/ emergency

iv) Separate tank for water underground and overhead of the capacity of 200KL reserved for firefighting system.

v) Regularly conducting the training for firefighting along with the mock drill with Govt. security agencies, reports are enclosed.

vi) 4 No. of DG sets of 1010KVA, 2 Ups of 80KVA installed for power backup and also we have a fire diesel engine, which always ready on auto mode and working in electric power failure.

viii) yes , it is separated and clearly marked.

ix) 4 No. of DG sets of 1010KVA, 2 Ups of 80KVA installed for power backup and also glow signage's are at appropriate places to guide the peoples towards exits & assembly point during emergency.

x) Yes, always remain operational during the business hrs. Of Mall. We are paying Rs. 32,57,194 as Annual maintenance charges for Lifts and Escalators and Rs. 48500/- as annual fees for the license to chief inspector of Lifts and escalators. License copies are enclosed.

xi) Adequate Ventilation fans in all the floors including the basements are installed.

xii) Yes

			Vehicle around the premises.	
	A.3.5	NOISE:	<p>i) The acoustic enclosures shall be installed at all noise generating equipment's such as DG set etc. to mitigate the impact of noise.</p> <p>ii) The overall noise level in and around the project area shall be kept well within the prescribed standards by providing noise control measures including acoustic insulation, hoods, silencers, enclosures, vibration dampers, etc. on all sources of noise generation. The ambient noise levels shall confirm to the standards prescribed under the Environment (Protection) Act and Rules.</p> <p>iii) Spaces in the project shall not be rented and for noise or Nuisance generating activities to ensure maintenance of serene atmosphere in the premises.</p>	<p>i) Yes</p> <p>ii) yes</p> <p>iii) yes The testing reports of noise are attached.</p>
	A.3.6	PARKING/TRAFFIC CONGESTION:	<p>i) Minimum 19871 Sq. mtr. areas in 03 basements for 567 vehicles and open of 98 vehicles in the premises.</p> <p>ii) The area earmarked for the parking shall be used for parking only. No other activity shall be permitted in this area.</p> <p>iii) Traffic congestion near the entry and exit points from the roads adjoining the project site shall be avoided.</p> <p>iv) No public space including the service road shall be used or blocked for the parking.</p>	<p>i) & ii) Parking Basement 1. 6930.84 sqm = 198 ECS Parking Basement 2. 6930.84 sqm = 198 ECS Parking Basement 3. 6011.73 sqm = 171 ECS surface parking inside the premises 2471.38/25sqmtr=98 ECS</p> <p>Total Parking = 665 ECS</p> <p>iii) Yes avoided</p> <p>iv) No Public space is being utilized including service road for parking.</p>
	A.3.7	ENERGY CONSERVATION:	<p>i) Various energy conservation measures viz. use of efficient lamps, luminaries & control devices, installation of time switches, use of light colors for walls and ceiling, use of building materials having lower U-value & insulating material having higher R-value, etc. shall implemented as proposed.</p> <p>ii) The project proponent shall install energy efficient devices, appliances, motors and pumps conforming to the Bureau of Energy Efficient norms.</p>	<p>i) To conserve electricity, we have changed CFL to LED lights</p> <p>ii) Yes, Energy efficient devices are applied, motors and pumps installed as per Bureau of Energy Efficient norms.</p>

			iii) The transformers and motors shall have minimum efficiency of 85%. iv) Only variable frequency motor drives shall be used in the project. v) Solar street lights shall be provided in open sunlit areas. vi) Use of glass shall be minimal to reduce the heat island effect as well as reduce the electricity consumption	iii) Yes, already implemented. iv) Yes, VFDs are installed in HVAC system, Lifts and escalators. v) Adequate 18 Nos. of solar street lights are installed in the sunlight area. vi) yes
	A.3.8	GREEN BELT:	i) Green area shall be developed in minimum 1417 sq. mtr. including tree covered area and lawn covered area. ii) The area earmarked as green area shall be used only for green belt and shall not be altered for any other purpose. iii) Drip irrigation/low volume, low angle sprinkler system shall be used for the lawns and other green area including tree plantation.	i) Green area developed East side, north side and west side of our Mall with in our premises more than 1500 sqm and more than 1000 sqm green area maintained at outside in front of our Mall. ii) Yes, shall remains as green belt only. iii) yes

Other Conditions:

S.NO.	ENVIRONMENTAL CONDITION	COMPLIANCE STATUS
i	All the statutory clearances such as the approvals for storage of diesel from PESO, Fire Department, Airports Authority of India, CGWA, etc. if applicable, shall be obtained by the project proponent from the competent authorities	PESO, Fire department, CGWA, JKPCB Consents are enclosed.
ii	The project proponent shall strictly comply with the JK Building and other Construction Workers Act and Rules as well as JK lifts and Escalators Rules.	Permission from Jammu municipal corporation enclosed. JK Lift and Escalator licenses are enclosed.
iii	The project proponent shall ensure maximum employment to the local people.	The certificate copy of Local/non local manpower is issued by Vice President enclosed.
iv	The Project Management shall also comply with all the environment protection measures, risk mitigation measures and safeguards proposed by them.	Assure to comply

v	The project proponent shall also comply with any additional condition that may be imposed by the SEAC or the SEIAA or any other competent authority for the purpose of the environmental protection and management	Assure to comply
vi	No further expansion or modifications in the project likely to cause environmental impacts shall be carried out without obtaining prior environmental clearance from the concerned authority.	Assure to comply
vii	The project authorities shall earmark adequate funds to implement the conditions stipulated by SEIAA as well as JKSPCB along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall not be divided for any other purpose	<p>We have adequate funds of Rs. 3550000/-is banked to implement the conditions stipulated by SEIA as well as JKPCB. The detail is as below:-</p> <ol style="list-style-type: none"> 1. For STP AMC Rs. 547428/-. 2. Rs. 1141600/- for STP chemicals. 3. Lab Testing charges Rs. 68830/-. 4. Generator set's AMC charges Rs. 806716/- 5. Chiller's AMC Rs. 487855 6. Preventive maintenance Budget for motors are Rs. 150000/-
viii	The applicant shall inform the public that the project has been accorded prospective environmental clearance by the SEIAA and that the copies of the clearance letter are available with the JASPCB and may also seen at the website of SELAA/SEAC/JKSPCB. This shall be advertised within seven days from the date of clearance letter, in at least two local newspapers that are widely circulated n the region, one of which hall be in the Hindi language and the other in English. A copy each of the same shall be forwarded to the concerned Regional Office of the Ministry	The copies of two local newspaper regarding environmental clearance dt: 24.04.2014already submitted to your office.
ix	It shall be mandatory for the project management to submit half-yearly compliance report in respect of the stipulated environment clearance terms and conditions in hard and soft copies to the regulatory authority concerned, on 1" June and 1" December o each Calendar year.	Assure to comply
x	The project authorities shall also adhere to the stipulations made by the JKSPCB.	Assure to comply
xi	The project authorities shall inform the JKSPCB, Regional Office of MoEEF and SEIAA about the date of financial closure and final approval of the project by the concerned authorities and the date of	<p>Financial year start from 1st of April and ended on 31st of March.</p> <p>Date of operation is 01 May 2014.</p>

	operation of the project.	
xii	The SEIAA may revoke or suspend the clearance without notice, if implementation of any of the above conditions is not found satisfactory	Agreed
xiii	The company in a time bound manner shall implement these conditions. The SEIAA reserves the right to stipulate additional conditions, if the same is found necessary. The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, The Environment (Protection) Act, 1986 and Hazardous Wastes (Management, Handling and Trans boundary) Rules, 2008 along with other amendments and rules.	We hereby assure your good self that we will comply/ implement all the conditions/ suggestions laid down by your department and SEIAA from time to time.
xiv	This environmental clearance s subject to the outcome to this office letter no. SEIAA/MS/14/407 Dt. 11.04.2014 addressed to Secretary to Government Forest Department for action under OMdt. 12.12 2012,	Agreed
xv	Any appeal against this Environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010	Agreed

CONSENT ORDER

Consent No.:- PCc/digital/22062904092 of 2022

Date:- 27/09/2022

Consent to Operate (Renew) under Section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21 of the Air (Prevention & Control of Pollution) Act, 1981 as amended is granted in favour of Sh. Surjit Singh

M/s G S Mall Pvt. Ltd.

**Channi Rama Opp. Bhatindi Road Bye pass Jammu , Jammu
South Jammu (registered with DIC vide registration No. Nil
dt: 16-11-2017)**

for a period upto **June 2027** for Orange category as per revised classification of industrial sector, subject to the following terms and conditions in a time bound manner :

1. The consent is granted by the Board is restricted to Prevention and Control of Pollution only and shall not be treated as substitute for any other permission required under other laws of the land.
2. The consent is granted for the operation of Mall Multiplex having consented area as mentioned below with capital investment of Rs. 12100 lacs.

S No.	Facility	Max. Area	Unit
1	Construction of Mall (Multiplex)	20000	Sq. meters

3. Compliance under Water Act:

- a. **Sewage Effluent** : The project proponent to maintain STP in efficient manner so as to achieve the quality of treated sewage to the following standards before disposal :

Standards of discharge for sewage disposal:

Parameters	Conc. in mg/l except for pH
pH	6.5 to 8.5
Suspended Solids	100
BOD 3 days 27 ⁰ C	30

b. Water consumption & disposal

- i. The daily quantity of sewage effluent from the residential complex shall not exceed from KLD.
- ii. The daily quantity of water consumption shall not exceed KLD.
- iii. Waste water generated from the residential complex shall be disposed through STP.

- c. The project proponent shall take adequate safe guards for the treatment of sewerage water by way of providing STP and its discharge shall confirm to the following standards :

Parameters	Conc. in mg/l except pH
pH	6 - 9

No: DFES-FP/4/2022-04 (CC-7079397) 2130

Dated: 08.12.2025

Sub: Renewal of Fire Safety Measures/Guidelines in favour of commercial building running under the name & style of M/s G.S. Mall Pvt. Ltd. ---Annual Clearance thereof.

Ref: Your application submission dated: 18.11.2025.

The spot inspection regarding test check of Fire Fighting system installed in the commercial building was got carried out by the inspecting officer of this department. During inspection, it was found that management has installed Fire Hydrants, Sprinklers, Hose Reel Hoses, Smoke Detectors/Alarm System and First Aid Fire Extinguishers in their building premises. Moreover, the site is about 04 Km away from Fire & Emergency Station Gandhi Nagar and is approachable for fire appliances in case of any emergency. Since the building is already functioning. As such, the management can proceed ahead for operation subject to adopt the following Fire Safety Measures/Guidelines for effective and betterment of the building:-

1. Auto glow signage should be prominently displayed along the exit routes and shall be connected to an alternate source of electricity with automatic off and on provision in case of failure of electricity, so that the inmates can go out at the time of any emergency.
2. At least four dedicated persons working in your commercial building be earmark as Fireman who can maintain firefighting system and its operation in case of emergency round the clock. However, on your personal request, any assistance in terms of training of your employees if required for handling/ operating the fixed/first aid firefighting equipment installed in your commercial building. The nearest fire & emergency station can be approached for the same.
3. All exit/entrance gates of entire building as well as of all Audis may not be locked during public visiting hours. Any deviation found in this regard, the management will be wholly-solely responsible for that.
4. The Fixed Fire Fighting System installed in the entire building should be on Automatic Pressurized Mode 24x7 for its instant use in case of any emergency.
5. The corridor of the building shall not be used for any kind of storage.
6. Fire retardant paint should be used for furniture and other wood work.
7. High Velocity Water Spray System (i.e. Emulsifier Fire System) should be provided in the Battery Bank for its use in case of any mishap.
8. Modular Ceiling/Wall Mounted Fire Extinguishers of relevant capacity of Clean Agent/CO₂ are installed in all individual Electric Panels of various occupancy building of the entire Mall Complex.
9. All exit/staircases of the building should be kept free from any obstruction for quick and safe movement of inmates at the time of any emergency.
10. All electric installations existing in the building should be concealed conduit type.
11. Telephone numbers of nearest Fire & Emergency Stations and other allied agencies should be displayed.
12. No Hazardous material should be kept inside of the Building Premises (especially LPG Cylinders, Petrol and Diesel etc.) Any deviation found in this regard, this clearance will be treated automatically withdrawn/cancelled.
13. No addition/alteration should be made in the existing structure without prior information from this department. Any deviation found in this regard, this clearance will be treated automatically withdrawn/cancelled.
14. The department can make a surprise visit to your commercial building at any time. During the visit, if the firefighting system (i.e. existing as well as proposed) found defunct and deviation, this clearance issued shall be treated automatically withdrawn/cancelled.
15. **This clearance shall be subject to outcome of any dispute/investigation/enquiry/trial if any, pending before any Court of Law/investigation agency. This clearance shall not confirm any title upon the person/company in whose favour it is issued. Further, the status with regard to land shall be the responsibility of the concerned registering authority.**
16. **The instant clearance is strictly for adoption of fire safety measures/guidelines of the occupancy only and not for authentication of any other claim.**
17. The validity of this clearance shall remain in force for one year and same needs to be renew yearly after inspection/checking of entire firefighting system (i.e. existing as well as proposed) installed in the building by the technical officer of this department.

ANNEXURE-1

Ministry of Environment and Forests Notification

G.S.R. 371(E) dated 17th May, 2002 along with **G.S.R. 520 (E)** dated 1st July, 2003 and **G.S.R 448** dated 12.07.2004 (**The Environment (Protection) Amendment Rules, 2003**)

94. NOISE LIMIT FOR GENERATOR SETS RUN WITH DIESEL

1. Noise limit for diesel generator sets (upto 1000 KVA) manufactured on or after the 1st January, 2005.

The maximum permissible sound pressure level for new diesel generator (DG) sets with rated capacity up to 1000 KVA, manufactured on or after the 1st January, 2005 shall be 75 dB(A) at 1 meter from the enclosure surface. The diesel generator sets should be provided with integral acoustic enclosure at the manufacturing stage itself.

2. Noise limits for diesel generator sets not covered by paragraph 1, shall be as follows:

- i. Noise from DG set shall be controlled by providing an acoustic enclosure or by treating the room acoustically, at the users end.
- ii. The acoustic enclosure or acoustic treatment of the room shall be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on the higher side (if the actual ambient noise is on the higher side, it may not be possible to check the performance of the acoustic enclosure/acoustic treatment. Under such circumstances the performance may be checked for noise reduction up to actual ambient noise level, preferably, in the night time). The measurement for Insertion Loss may be done at different points at 0.5 m from the acoustic enclosure/room, and then averaged.

I. Atmospheric Pollution (Source Noise Levels)

Sr.No	Test Parameter	Unit	Result	Standard	Test Method
1	Noise Levels- (At 0.5 m from acoustic enclosure/Room with all door/windows/openings are OPEN)	dB(A)	102.3	--	IS 4758
2	Noise Levels- (At 0.5 m from acoustic enclosure/Room with all door/windows/openings are CLOSED)	dB (A)	76.3	--	IS 4758
3	Insertion Loss	dB (A)	26.0	Min. 25	IS 4758

Remarks : At the time of Sampling DG Set No.4 (1010 KVA) was operational.

End of Report

TEST REPORT

ULR No : NA

Test Report No : NSNL311025NA065

Type of Sample # : Source Noise Levels

Date of reporting : 01/11/2025

OTHER INFORMATION

Abbreviation & Symbol : # Information provided by customer. ULR: Unique Lab Report, BDL: Below Detection Level, NA: Not Applicable

Terms & Conditions :

1. The results relate only to the items tested.
2. Giving opinions does not imply endorsement of the tested product by laboratory. Under no circumstances, laboratory accepts any liability caused by use or misuse of Test Report.
3. The Test Report shall not be reproduced except in full or part or used as advertisement or evidence in court of law without written approval of the laboratory. Samples drawn under special circumstances like legal cases, the customer must declare the same at the time of submission.
4. Complaint log book is with Quality Cell. Contact No. (M) 91 8872 04 3135, Phone 91 172 4616 225 Email: quality@ecoparyavarana.org
5. The samples tested may be preserved for a period but not exceeding 7 days from date of reporting, unless otherwise specifically desired by the customer or regulatory authorities. However, depending upon the nature of samples and effect of preservation the test results of preserved samples may vary. Laboratory also does not assume any responsibility in the test results of samples kept on hold for want of clarification.
6. All disputes are subjected to jurisdiction of Mohali (Punjab) India and maximum liability of the laboratory does not exceed the testing and sampling charges.
7. In case where sample is provided by the customer, the reported results shall apply to the sample as received.

ANNEXURE-1

Ministry of Environment and Forests Notification

G.S.R. 371(E) dated 17th May, 2002 along with G.S.R. 520 (E) dated 1st July, 2003 and G.S.R 448 dated 12.07.2004 (The Environment (Protection) Amendment Rules, 2003)

94. NOISE LIMIT FOR GENERATOR SETS RUN WITH DIESEL

1. Noise limit for diesel generator sets (upto 1000 KVA) manufactured on or after the 1st January, 2005.

The maximum permissible sound pressure level for new diesel generator (DG) sets with rated capacity up to 1000 KVA, manufactured on or after the 1st January, 2005 shall be 75 dB(A) at 1 meter from the enclosure surface. The diesel generator sets should be provided with integral acoustic enclosure at the manufacturing stage itself.

2. Noise limits for diesel generator sets not covered by paragraph 1, shall be as follows:

- i. Noise from DG set shall be controlled by providing an acoustic enclosure or by treating the room acoustically, at the users end.
- ii. The acoustic enclosure or acoustic treatment of the room shall be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on the higher side (if the actual ambient noise is on the higher side, it may not be possible to check the performance of the acoustic enclosure/acoustic treatment. Under such circumstances the performance may be checked for noise reduction up to actual ambient noise level, preferably, in the night time). The measurement for Insertion Loss may be done at different points at 0.5 m from the acoustic enclosure/room, and then averaged.

FIRE MOCK DRILL

WAVE MALL JAMMU

Subject:-Meeting Minutes: Fire Fighting Training Session – 22 December 2025

Dear Sir,

This is to inform you that a fire Fighting training session was arranged for payroll employees and outsourced agency staff (BD Security & PCS Housekeeping).

Training Details:

Date: 22 December 2025

Time: 09:00 AM to 10:00 AM

Location: Cinema Audi-1

Please find below the internal training meeting minutes for your reference:-

Key highlights of the training included:

- Fire prevention in general.
- Necessary actions to be initiated upon discovering a fire.
- Proper use of fire extinguishers.
- Method of raising a fire alarm.
- Reporting of fire hazards.
- Location and use of fire Fighting equipment.
- Escape procedures in case of fire, assembly point awareness, and roll call procedure.
- Isolation of power supply and machinery parts.
- Evacuation procedures, including arrangements for people with disabilities.
- Closure of smoke check doors and windows.
- Correct method of contacting emergency services such as the Fire Service Department and local police

Thank you for your continued commitment to workplace safety.

Note:- Training attendance and employee feedback forms are enclosed herewith.
